

UNITED STATES GOVERNMENT

memorandum

STAT

DATE: 13 August 1986

REPLY TO
ATTN OF:

[Redacted]

SUBJECT: Shipment

TO: Asgher Bhalloo, GSO

1. [Redacted] and I met with Mr. Moll of Air Link this morning to explain our requirements for the packing of equipment destined for other bureau locations and Washington. Mr. Moll explained that the company has experience in moving electronic equipment and described the packing material that will be used; he foresees no particular difficulty in handling the FBIS shipments in a satisfactory manner. STAT

2. We agreed that the largest shipment, that bound for Cyprus, will be packed on 23 August and transported by sea as soon as possible. The shipment will require one 20-ft. container and should be consigned to:

FBIS
American Embassy
Nicosia, Cyprus
via Limassol

3. The shipment for Washington, also to be transported by sea, will be packed on 25 August. Several smaller shipments bound for a variety of other bureaus by air freight will be packed the same day. I will provide a list of addresses for these shipments separately.
